NCLEX Bootcamp Calendar

Course Description:

This intensive, 10-week NCLEX Bootcamp is designed to prepare nursing students and graduates to succeed on the NCLEX examination through a structured, comprehensive approach. Each week focuses on essential nursing content, test-taking strategies, and clinical reasoning skills tailored to the NCLEX test plan. With a mix of theory, hands-on practice, and NCLEX-style questions, students will build a solid foundation to confidently approach and excel in each section of the exam. This Bootcamp is specifically recommended for NPTI Nursing Program graduates who have completed all coursework, ensuring they're fully prepared for the NCLEX Bootcamp.

Resources:

The 10-week NCLEX Bootcamp will be fully supported by resources from the 17-month program, ensuring students have everything they need for review without requiring any additional materials.

Recommended: UWorld Subscription

Methodology:

Online - Synchronous

Instructor:

Manuel A. Gonzalez, MSN-RN

Calendar of Weekly Topics:

Start Date: 01/06/2025

Completion Date: 03/14/2025

Length: 10 weeks

Frequency:

- Monday-Thursday: Online Class with instructor
- Friday: Assigned questions on your own – No instructor

Week	Date	Topic	Day	Description
1	1/6/2025	Test-Taking Strategies & NCLEX Structure	Monday	Introduction to the NCLEX (purpose, structure, and format)
